H.C.L. HITS PARTY CONVENTIONS.

San Francisco's Prospects for National Democratic Gathering Improved by Eastern Cities Shunning Session as Too Expensive.

WASHINGTON, Nov. 25.—Now the high cost of living has attacked the national conventions. There are few cities bidding for the great party gatherings for next June and July. San Francisco has a fair chance for the Democratic gathering, but it will cost the Golden Gate \$100,000 to land the plum. Chicago is the leader for the Republican gathering, and all the other cities are only perfunctory bidders and have taken insurance not to get the expensive luxury.

LEADERS SECRETLY PLOT NATIONAL RAIL STRIKE.

Unions Insist that Brotherhoods Take Action for Quick Tie-up to Force Wage Increases.

CHICAGO, Nov. 25.—National leaders of the four great railway brotherhoods held a secret session today at which the insistence of many local unions that a general strike of all railway workers in the United States be called by December 1, to enforce demands for a general wage increase, was given serious consideration, according to information obtained here tonight.

COUNCIL CALLS GERMAN BLUFF.

Peace Conference Sends a Stern Warning Note.

Puts Responsibility of Failure on Teutons.

Departure of Simson Believed to be a Trick.

PARIS, Nov. 25.—Surprise at the departure of Dr. Simson, head of the plenipotentiaries sent by Germany to the city in connection with the armistice protocol, was expressed in a note delivered to Kurt von Lersner, head of the German delegation at Versailles, by the Supreme Council last night.

"If the treaty of Versailles is not put into force by December 1, the new side, the responsibility will lie with the German government, and the plenipotentiaries sent by Germany to the city in connection with the armistice protocol, was expressed in a note delivered to Kurt von Lersner, head of the German delegation at Versailles, by the Supreme Council last night.

It was learned today that Von Lersner sent a letter to Secretary D. G. Coatsworth, president of the Peace Conference, Friday to the effect that the head of the plenipotentiaries sent by Germany to the city in connection with the armistice protocol, was expressed in a note delivered to Kurt von Lersner, head of the German delegation at Versailles, by the Supreme Council last night.

TROOPS READY TO INTERVENE.

America Prepared to Send Army Into Mexico.

No Answer Yet on Protest in Jenkins Case.

Consular Agent, Ill, Still in Penitentiary.

ING OUT of a more defiant attitude by the Carranza administration. In the absence of advice from the Embassy at Mexico City, officials were not inclined to put any faith in reports coming by way of Laredo, Tex., that the release of Jenkins was "momentarily expected."

Meanwhile, the government has been checking up the official and private record of Jenkins and has given him a high-class rating. Officially declared there was no foundation for the charge that he had conspired with the bandits.

JENKINS STILL HELD. The latest report from the American Embassy showed that Jenkins was still under the protection of the Carranza administration. In looking to the various features of the consular agent's predicament, officials pointed out today that the Carranza administration was not inclined to release him.

It was learned today that Von Lersner sent a letter to Secretary D. G. MINE WAGES IS UNSETTLED ISSUE.

Cabinet Deadlocked After Day of Discussion.

Operators and Workers See no Settlement Hope.

McAdoo's Statement Brings Storm of Protest.

WASHINGTON, Nov. 25.—President Wilson's Cabinet tonight seemed hopelessly deadlocked on the question of a wage increase in the bituminous coal industry.

After a six-hour session, the Cabinet, which took up the wage-scale agreement where operators and miners left off last week, adjourned until tomorrow when another attempt, with the aid of Fuel Administrator Garfield, will be made to agree upon a pay scale that will satisfy the mine workers and owners and the people in all sections of the country.

The proper basis of calculating the proposed wage advance and the ratio of dividing the consequent increase in cost of production of coal between the operator and the public, are understood to have been the points of difference among the Cabinet members. Dr. Garfield, who took a leading part in the discussions, took issue with Secretary of Labor Wilson as to the method of applying the figure accepted by both.

Dr. Garfield declined to say whether progress had been made, but one member of the Cabinet declared that "in complete accord with the opinion of the majority of the Cabinet, the cost of living had increased 75 per cent. over 1913, and it was accepted, it was understood, that a difference of opinion arose as to the application of this and other figures in computing the basis of the proposed advance."

Secretary Glass said tonight that he might have "some very interesting figures tomorrow evening," emphasizing that the figures were compiled for the public and not for the Cabinet.

The statements of former Secretary of the Treasury McAdoo, charging that some of the coal concerns made enormous profits during his incumbency in 1913 and 1914, adding that he would permit an increased price for coal, were also discussed.

Operators and miners spent two hours in conference today without reaching the deadlock as to wages. The coal operators' representatives, however, were not to be continued until after the Cabinet had acted.

INQUIRY IN TAXES. Investigation of the current tax returns of both the coal operators and miners was advocated today in an open telegram from the operators to former Secretary McAdoo, in which they charged that the operators' income tax returns for 1917 indicated excessive profits.

Conditions in 1917 were "abnormal," the message said, but it asserted Mr. McAdoo was ignorant of the conditions in 1917 and 1918, adding that his message on present conditions "carries no weight and requires no answer."

The telegram said Mr. McAdoo's "misleading statements and insinuations are the kind of stuff which will be forgotten by the people."

"Whatever your purpose," it added, "it is in exceedingly bad taste for you, a former member of the Cabinet, to make such insinuations to infect yourself into the present tense situation in a manner which is so completely unwarranted."

Reviewing the coal supply situation, the Railroad Administration reported that 22,000,000 tons were being produced in the United States in November 2, the second day of the strike. Since then these stocks, which had been accumulating for some time, have been drawn on to supply the railroads, ships, public utilities, essential industries and public welfare institutions as well as for household use.

The Railroad Administration's statement said that the average number of cars of bituminous coal loaded daily was 2105, or 24 per cent. of the pre-strike average. The second week's loading was at the rate of 10,000 cars, or 26 per cent. of the normal rate, a gain over the first week of 10 per cent.

Last week, the third of the strike, production steadily increased, and reached nearly 40 per cent. of normal. The present week promises so far a still better showing.

The sub-committee held a perfunctory meeting today, at which Dr. Garfield's statement of principles was discussed. Pending word from the Cabinet, the committee was taken until tomorrow.

FOCH SEES NEW WAR OF TEUTONS.

(Continued from First Page.)

of the Atlantic Ocean. Great Britain and the United States, North Sea and the English Channel, the Rhine, where the Rhine is, there is a possession only of this line is able to assure the safety of my country.

But the peace treaty is quite beyond my province. It has been made by politicians. At any rate, we must attempt to avert the return of the situation of France at the beginning of the war, when in order to allow her allies to complete the preparations, France sacrificed herself. She was the sole rampart of civilization.

"Most certainly, Americans provided us with really splendid conditions; but they came so late, I fully and deeply appreciate America's help. I am deeply indebted to you, my dear friend, for the aid you have given me. I am deeply indebted to you, my dear friend, for the aid you have given me. I am deeply indebted to you, my dear friend, for the aid you have given me."

Both the case of Jenkins and general conditions in the southern republics were discussed by Mr. McAdoo. He said the Cabinet had before it no more information than was available to the State Department yesterday.

A reply to the American note demanding the release of Jenkins was received today from the Carranza administration. It was a long and detailed reply, but it was not to be continued until after the Cabinet had acted.

WHAT FRANCE NEEDS. "What France needs is true, real strong guarantees, close guarantees. I am deeply indebted to you, my dear friend, for the aid you have given me. I am deeply indebted to you, my dear friend, for the aid you have given me. I am deeply indebted to you, my dear friend, for the aid you have given me."

"France has been terribly ravaged. Not only the complete destruction of her north and east regions, but also the demolition of her factories and industrial stocks will prevent her from manufacturing for some time."

"In addition to this her financial situation will hamper the revival of her industry. She needs a large sum of money to pay her debts. She needs a large sum of money to pay her debts. She needs a large sum of money to pay her debts."

LAREDO REPORT. LAREDO (Tex.), Nov. 25.—Release of Jenkins, American consular agent at Puebla, Mex., was expected momentarily, according to a dispatch from Puebla received here today. Jenkins was held by the Carranza administration. He was held by the Carranza administration. He was held by the Carranza administration.

PUEBLA DISPATCH. A dispatch from Puebla today had ordered the immediate release of Jenkins, American consular agent at Puebla, Mex., was expected momentarily, according to a dispatch from Puebla received here today. Jenkins was held by the Carranza administration. He was held by the Carranza administration. He was held by the Carranza administration.

THE COURT INVESTIGATING JENKINS' case now is examining employees of the Carranza and Chihuahua electric power companies. Jenkins was held by the Carranza administration. He was held by the Carranza administration. He was held by the Carranza administration.

UNIVERSAL, another Mexico City newspaper, confirms the report from Laredo that Jenkins was held by the Carranza administration. He was held by the Carranza administration. He was held by the Carranza administration.

THE STRIKE BETWEEN MEXICO and the United States, created no general stir. The newspapers seem inclined to treat the Jenkins affair with much caution. There has been a minimum of editorial comment and none of the inflammatory.

At the American Embassy it was said that no answer had been received from the Carranza government relative to the American government's note demanding the release of Jenkins. So far as is known, Mr. Jenkins remains in jail at Puebla.

Dispatches received from Puebla say that Mr. Jenkins' release by the Carranza administration is expected momentarily. He was held by the Carranza administration. He was held by the Carranza administration. He was held by the Carranza administration.

REPORT RENTIERIA BLAIN. PRESIDENT (Tex.) Nov. 25.—Jesse Blain, the bandit who obtained \$15,000 ransom for the return of his son, was held by the Carranza administration. He was held by the Carranza administration. He was held by the Carranza administration.

VILLISTAS IN BATTLE. (ST. A. P. BY WIRE.) AGUA PRIETA (Sonora, Mex.) Nov. 25.—A Federal column arrived here today.

ANGELES GIVEN DEATH SENTENCE.

(Continued from First Page.)

other outlaws committed. We showed ourselves to the whole world for while the American is clean in mind, body and environment, we are absolutely and unequivocally opposed.

Ever since Gen. Angeles was brought to Chihuahua he has considered his fate settled, according to those who visited him in his cell. He has said his main hope and thought was to publicly say "something that would not have any money blackened and dishonest my name."

This hope recalled to residents along the border the statement of Gen. Angeles six months ago, when he crossed into Mexico to join Villa on promises of the latter that bandits would be stopped and no further violence would be committed on the part of the Carranza administration.

A TRUE PATRIOT. At that time he said: "I am going back to lift my country out of the depths of lawlessness to which she has fallen, or else to die for her."

Gen. Angeles was taken to trial from a room in a town barracks next to the Chihuahua State penitentiary where he has been held since being brought to Chihuahua. In the barracks Angeles and his two companions had separate rooms. For three nights the famous soldier had no bed. Then in the middle of the night one of the barracks was burned down.

The comparative figures submitted by Secretary Wilson were characterized as "misrepresentative and misleading." It was said that all consideration of machine miners and all day laborers. Machine miners are employed in the central territory, according to the statement, and men not paid on a piece basis are employed in the central field.

COURT PERSONNEL. The court which tried Angeles and his companions was composed of Gen. Pablo Quiroga, President of the court, Gen. Pablo Quiroga, President of the court, Gen. Pablo Quiroga, President of the court.

Details of the capture of Angeles reached here tonight. After learning that Angeles was being held in the hills of Sonora, Chihuahua, Gen. Quiroga, chief of the military police, accompanied by a detachment of 400 men, went to the hills to capture Angeles.

After searching for six days and descending to the arroyo of San Tome, the pursuers discovered the Angeles party in a cave. The local forces, including the military police, went to the cave and captured Angeles and his companions.

Immediately the home guards continued the pursuit of the rebels. They were followed for several days until the next day when, at the ranch of the Peach, they reached the rebels.

KANSAS CITY DENIAL. (ST. A. P. BY WIRE.) Information obtained tonight was that the local Tradesmen's Union had decided to wait action of the Cleveland conference before striking. It was indicated that in the event a national railroad strike is called the war-out would begin in Kansas City.

Union officials here tonight were emphatic in their assertions that there was no strike pending, and that matters in dispute between the railroad men and the roads had been satisfactorily adjusted by the Cleveland conference.

Railroad officials also said they had received no word that a strike might be called.

MARY GARDEN'S HOME; PEEVED AT SOMETHING. (Continued from First Page.)

photographer jumped in front of her and started taking her picture. "One Mary" was the name of the photographer, and the photographer removed his shoes, you might say, adroitly. The press agent, recovered, waited in the street outside the station and looked helplessly about him.

PREDICTS JAZZ OPERA. "If you would be so kind," he began as Mary appeared. She stared for a moment in his direction, and—oh, what she said!

Later at her hotel, having entirely recovered from the "pet" which made her snub the crowd of cameramen and interviewers that greeted her at the station, she discussed movies and stockings and legs.

the splendid patronage you giving us. The new accounts come to come in at a very live rate in spite of our torn up waiting room.

We thank all our customers for their patience and good natured indulgence while we are making a new banking room with little inconvenience to business possible.

We know that you are interested in this evidence of growth and progress and that you will enjoy the convenience of our pleasant new quarters when completed.

The work is also progressing on our new branch at Hollywood Boulevard and Hudson Avenue and we hope to be ready to open there before New Year.

TELLS DRY TO KEEP UP FIGHT.

Enforcement of Prohibition Outlined by Kramer.

Says that Big Struggle is to Get Evidences.

Religious Organizations Must Use Influence.

WASHINGTON, Nov. 25.—Enforcement of constitutional prohibition will be placed squarely upon State and municipal authorities and the Federal government machinery will not intervene unless inefficiency on the part of local officials makes such action necessary. The board of temperance of the Methodist Episcopal church was told here today by John F. Kramer, Federal prohibition commissioner. It was Kramer's first pronouncement of policy since he assumed office a week ago. He said the people of the country could be divided into two groups: "WHO WILL OBEY?"

"Heretofore the line of demarcation has been between those who favored prohibition and those who opposed it," he said. "From now on the line of demarcation will be between those who favor obeying the law, whether their personal are in harmony with the law or not, and those who will be ready and anxious to violate the law."

Describing the machinery being set up for the enforcement of the prohibition laws, Mr. Kramer said the first step would be with the various State inspectors. **NEED CHURCH BACKING.** "One of the chief duties of the State Federal director," he added, "will be to secure the backing and support of all civic, moral and religious bodies."

Affirming his belief that the great mass of the American people were at heart law-abiding, the prohibition chief declared that "this fact will tell mightily in the matter of getting results from the law."

The highest success will be attained only if the great mass of law-abiding people make their influence and power felt. Mr. Kramer said, "Obedience to law should be preached from pulpits, taught in every schoolroom, urged from every platform."

BATTLE STILL ON. Warning the board that the battle for prohibition was "but well launched," Mr. Kramer declared that the greatest danger to the friends of prohibition was that "our people are not given to maintaining a continued effort along any particular line of reform."

"The battle for prohibition is not won," he said. "We have gained ground of great strategic importance. We must not only hold it, but capture advanced positions as well."

TO MAKE SYNDICALISM NORTH DAKOTA FELONY

BISMARCK (N. D.) Nov. 25.—A bill defining criminal syndicalism which would make it a felony in this State to advocate or teach the duty, necessity or propriety of crime, sabotage, violence or other unlawful methods of terrorism, will be introduced, probably tomorrow, in the North Dakota Legislature, which began its extraordinary session today. The bill would prohibit assemblies for teaching or practicing syndicalism and provides a penalty of not less than ten years imprisonment or fine of not less than \$1000, or both.

ARMY OF REPATRIATES PLAN OF YOUNG TURKS

WASHINGTON, Nov. 25.—The repatriation of 200,000 Turkish prisoners of war interned abroad is threatening the pacification of Asia Minor, according to an official report made to the State Department today by Miran Sevanly, representative of the Armenian national delegation.

DENIKINE ARMISTICE WITH UKRAINE ENDED

VIENNA, Nov. 25.—The Ukrainian legation says that the armistice between Gen. Denikine and the Galician Ukrainian army, concluded October 24, has been annulled in consequence of the discovery that Gen. Tarnowsky had treacherously negotiated behind Fodor's back. Tarnowsky and his associates have been arrested and will be court-martialed.

LONDON, Nov. 25.—"Impudent attack by enemies of the revolution have brought about a miracle. We have gained a full victory over Koltchak which will be of historic importance for the people of the East."

FAMOUS ENGINE MAKER IN CAUSTIC COMMENT.

BANQUET SPEAKER GIVES ADVICE ON LABOR, PROHIBITION AND BUSINESS.

NEW YORK, Nov. 25.—There is nothing to worry about in the present industrial situation, in the opinion of Samuel M. Vaudelin, president of the Baldwin Locomotive Works, who addressed the Bond Club of New York today.

"Many people think that the country is menaced on account of labor," he said. "Forget it, and in ten years you'll be sorry. Get busy attending to your own business, and labor will attend to labor's business. You should remember, however, that now that prohibition has come there are some 500,000 'busy bodies' out of jobs. They are likely to fall on some of our habits, privileges and customs, and if they do, I say beware."

"If some of us who can afford to ride in automobiles were as prompt in getting to work as the workman and stuck on the job as faithfully, the worker would not have as much cause for complaint. I have had many years' experience, and I tell you labor is all right, and will prove it all right."

Mr. Vaudelin also counseled against the granting of huge loans by the American people to foreign countries. "Keep your bankers from using your savings to finance the 'rope,' he said, "and have them use it to finance increased production here in America."

CARDINAL GIBBONS'S MESSAGE

BALTIMORE, Nov. 25.—Cardinal Gibbons, primate of the American hierarchy of the Catholic Church, today issued this thanksgiving message: "We offer thanks to God this year because of the many blessings received from him during the past twelve months; in particular for the cessation of the world war, and in our own country for the prosperity and peace we enjoy. We thank him for the spirit of patriotism fanned into a warmer flame in the hearts of our people, and manifesting itself most recently in the resolve to overthrow the lust and vice provision of our government."

Hagerstown Shopmen Strike

HAGERSTOWN (Md.) Nov. 25.—Demanding immediate payment of back wages from last May, 400 boilermakers, pipe fitters, machinists and other craftsmen in the Western Maryland railway shops here refused to go to work today.

Italy Names League Delegate

ROME, Nov. 25.—Senator Vittorio Salviati has been appointed Italian delegate to the council of the League of Nations.

PLANS INTERNATIONAL COMMERCE CHAMBER

AMERICAN ORGANIZATION CLAIMS MOST IMPORTANT STEP OF TRADE PARLEY.

NEW YORK, Nov. 25.—Additional details of the plan conceived by delegates to the international trade conference establishing a permanent world organization of bank and business men to be known as the International Chamber of Commerce, were made public tonight by the United States Chamber of Commerce. The announcement stated that formation of the new organization is one of the most important and significant steps developing out of the visit to this country of the European delegates.

Membership in the new international Chamber of Commerce will comprise financial, commercial and industrial organizations of the leading countries of the world. Its first meeting will be in Paris in June, 1920, and will be attended only by representatives of Belgium, France, Great Britain, Italy and the United States.

Organizations in other countries will be admitted, it was announced, after the first meeting in Paris. International meetings are to be held every two years.

Sciatc Pains Quickly Relieved

Keep Sloan's, the World's Liniment Handy to Alleviate Aches.

THOUSANDS of men and women, when the least little "rheumatic crick" assails them, have Sloan's Liniment handy to knock it out. Popular a third of a century ago—more popular today.

That's because it is so wonderfully helpful in relieving all external aches and pains—sprains, lameness, neuralgia, overstrained muscles, stiff joints, weather exposure results. A little is all that is necessary, for it soon penetrates without rubbing to the sore spot. Leaves no mark, stained skin, clogged pores. A bottle today is a wise precaution. Keep it handy. All druggists—5c, 7c, 14c—(Advertisement.)

DEATH DRIVES BIG CARS ON SPEEDWAY AT ASCOT.

One Dead and Two Badly Injured in Two Accidents in Practice for the Thanksgiving Sweepstakes.

One man is dead and two others are in hospitals, seriously injured, as the result of automobile accidents on Ascot Speedway yesterday.

D. Arthur Kennedy of Carpinteria was killed almost instantly when the big Stutz in which he was riding turned turtle on the back curve of the concrete track. Walter Blume, mechanic, who was driving the machine, is in the hospital with a broken leg and numerous bruises.

Page M. Philbrook is in a critical condition at the Angeles Hospital. He was riding with Earl Kaster in the Kaster Special when it smashed into the rail on the grand-stand turn of the speedway and was wrecked. His jaw is broken in four places, his left wrist is smashed and he is suffering from extreme shock.

The first accident occurred shortly after noon while the racing cars were being tuned up for the preliminary trials later in the day. Jack Blume had been driving the Stutz, formerly owned by Earl Cooper, and had turned several fast laps of the course when he noticed that the right rear wheel was slightly out of line. He drove into the pits and turned the car over to his mechanic with instructions to drive a slow lap and try to discover the trouble.

Arthur Kennedy was standing near the pits and asked to be allowed to ride with Blume. He climbed into the car as it started away.

Blume opened the machine on the back straightaway and hit into the back turn at a high rate of speed. Suddenly the car skidded, hit the soft dirt on the edge of the course and veered into the air. Both men were thrown out, Blume to one side, and Kennedy directly in the path of the falling machine and was crushed.

It was thought by many that one of the rear wheels collapsed as the car hit the back turn and that this was what caused the accident. Others claim that Blume lost control as the car went into the curve and could not pull it around.

The car was not seriously damaged and may appear in the race Thursday.

SECOND ACCIDENT.
The second accident in which Philbrook was critically injured occurred about 2 o'clock. Kaster and his mechanic, Philbrook, had completed two practice laps of the speedway and were ready to qualify on the third. They came down the home stretch at a high rate of speed and started into the grand-stand curve as it entered, the Kaster Special.

Philbrook was not so lucky. As the machine spun upon its front wheels, Philbrook was hurled from the car and in a path almost parallel to it. He was thrown thirty feet through the air and hit on his head on the concrete course.

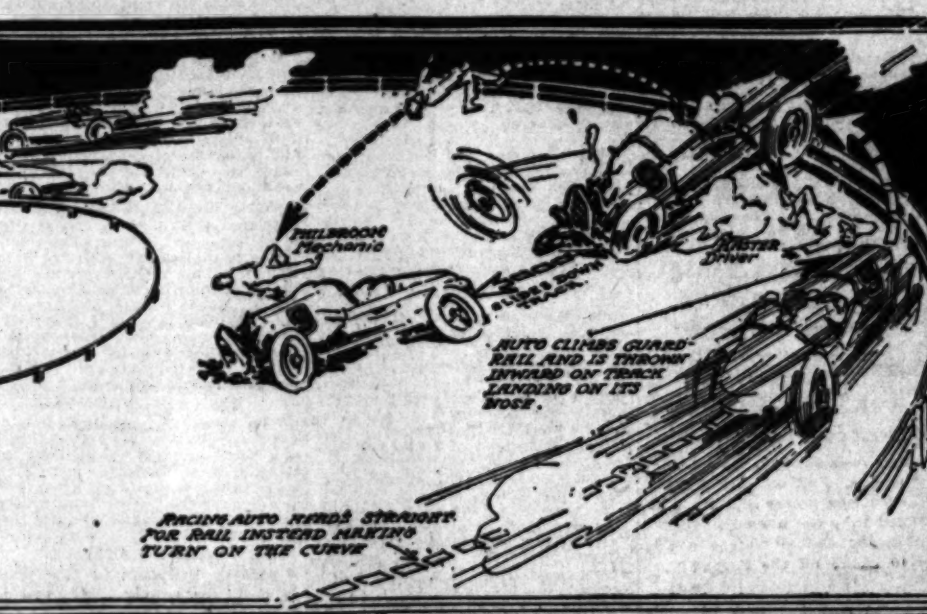

A special machine was rushed to the scene of the wreck and Philbrook was taken immediately to a hospital.

This was one of the most sensational accidents ever seen on the Ascot course. The car seemed to spin on its front wheels with the rear end waving in the air. Two of the wheels curved in and the Kaster Special finally rolled broadside to the course and came to rest on its side.

Philbrook was the victim of a very similar accident two months ago at Hanford. He was riding in the same car with Kaster when it hit the fence and was damaged. Philbrook sustained a broken arm and many minor bruises. His home is at 1523 Ninth street, Sacramento. Mrs. M. Philbrook, his mother, has been notified.

Twelve other racing cars were in the pits at the time of the second accident. They were all in the preliminary trials in preparation for the Thanksgiving Sweepstakes to be held at the Ascot Thursday afternoon. Six machines qualified. At least six more are expected to qualify this morning.

Huge Racer, Spinning Catapult, Hurls Drivers in Space.

PHOTOGRAPH SHOWS KASTER SPECIAL JUST AFTER IT CAME TO REST AFTER THE FLIGHT SHOWN IN THE PEN-AND-INK DRAWING BY OWENS.

ROAD LAWS FOR SHANKS PONIES.

Strict Traffic Regulation of Pedestrians Planned for New Ordinance.

Pedestrians will be required to cross downtown street intersections only on signal of the traffic officers if one of five traffic regulations suggested for the new ordinance is adopted by the City Council.

Foot passengers also will be forbidden to cross streets in the middle of blocks or to make diagonal crossings at street intersections.

The Council also will be asked this morning to incorporate these further features in the traffic ordinance to become effective next January 1:

Elimination of left-hand turns by motors in the congested district; stopping of autos twenty-five feet back of street intersections; leading and crossing of street cars in tandem, and regulation of steam switching trains.

WEE PLAINTIFF SUES FOR MOTHER'S DEATH.

LAURA MULLINS 1 YEAR OLD, THROUGH FATHER, ASKS HEAVY DAMAGES.

The tiniest plaintiff ever in court here is Laura Mullins, 1 year old, who is suing Rosemond Borden, who is suing Rosemond Borden, for \$25,000 damages for the death of her mother, Laura Mullins.

It is alleged that while Mrs. Mullins was a member of the police department, but who was a private detective last June, when she investigated the case for Mr. Kerckhoff, with the result that Borden was taken before Judge Reeve.

Dr. Ross Moore, who examined Borden for the court, declared Borden suffered from "developing paranoid and psycho-sex delusion." According to the testimony given at the time of his death last June, Borden had only been seen at a distance, and much to her annoyance, he sent her candy and flowers and wrote her letters, until finally he was taken before the court.

In his damage suit, filed Monday, Borden says he was arrested and charged with insanity, and that after a hearing he was adjudged not guilty and was discharged.

Mr. Swan, who was made a co-defendant in the damage case, said Borden was not discharged, but was paroled, and that the court yesterday canceled the parole and ordered the man into custody.

BIG FIRE IN CREAMERY.

Fire which is thought to have been started by a defective electric motor which was running a feed cutter in one end of the grain barn at the ranch of the Los Angeles Creamery on East Stephenson avenue last night caused a loss which was estimated at from \$50,000 to \$75,000.

The blaze started shortly after 6 o'clock in the evening and raged until after 10 o'clock. The burning out of fuses in the motor at the pump plant left the property at the mercy of the flames for nearly an hour. A call for the Los Angeles fire department was sent in by D. A. Potter, superintendent of the ranch, but the department was unable to render assistance because the ranch is far beyond the fire hydrant zone. Two trucks were sent out, but they were unable to render much assistance.

Before the conflagration was brought under control it had destroyed one of the long milking stables, seriously damaging several others, and burned up the machinery building and the feed barn. The loss in machinery alone amounts to many thousands of dollars. Every particle of grain and hay on the premises went up in smoke, it was reported.

After it appeared that every building on the ranch would be burned by the flames, which were lashed by a brisk wind, the volunteers of the neighborhood, numbering several hundred, succeeded in starting the pump plant, and streams of water playing upon several of the buildings within the danger zone saved them from destruction. Officials of the company and thirty ranch hands were still fighting the blaze at midnight.

No live stock was burned, so far as the ranch hands have been able to determine. The dairy cows, numbering about 500, had been turned out only a short time before the fire broke out. The ranch is located north of Stephenson avenue and east of Calvary cemetery.

FIRE FAKER IS CONVICTED.

Roy R. Lauman, indicted by the county grand jury on a charge of filing false proof of fire losses, was found guilty on three counts by a jury in Judge Houser's court last night.

According to facts presented by the District Attorney's office, Lauman filed false proof of fire loss against the Concordia Fire Insurance Company on a fire which occurred at No. 2193 West Eleventh street June 5, 1917. The fire occurred at a dry goods store which was destroyed.

It was also brought out that he had another fire forty days later and that he then filed false proof against the Springfield Fire Insurance Company and the Providence-Washington Fire Insurance Company. The District Attorney's office proved that he put in claims for a great deal of wearing apparel which had been removed from the building before the fire occurred, and it was set out that he even carried in coat-of-armor to make the damage appear greater than it really was.

He was convicted in the court of Judge Williams early in 1917 for making false proof regarding another fire and was fined \$500. The offense for which he was convicted last night carried with it a penalty of from one to five years in the penitentiary.

NAME OIL INQUIRY HEAD.

Arthur Dennison, a special agent of the Department of Justice, who has been designated by U. S. Attorney O'Connor and Charles C. Richards, assistant to Atty.-Gen. Palmer, to conduct the local investigation into the affairs of the oil corporations having their headquarters in Los Angeles, with a view to ascertaining whether or not they have violated the Sherman anti-trust law in advancing the prices of their product, will begin work on his new task Friday.

In the meantime he is finishing his work in connection with the sugar investigation, which under the new arrangement has been taken over by Special Agents Hall and Holman, special agents under Stephen Connell, agent in charge.

The inquiry of Mr. Dennison, so far as it related to the manipulation of sugar supplies and prices, is understood to have developed a very good state of commercial health in Los Angeles and vicinity. It comes from a source that will brook no denial that the sugar refiners will be given a clean bill; that the brokers are only taking a profit of 5 cents a bag, authorized by the orders of the Food Administration, and that the retailers, so far as the investigation has gone, have not been found to have violated the law regarding hoarding supplies or the imposition of unfair prices.

In a word, so far as Los Angeles is concerned, there has been no violation of the national statutes, except, possibly, in the case of the defendants, F. S. Chandler, A. Blumenthal and Joe Goldberg, who are charged with profiteering in defiance of the law forbidding such practices. Their case is now before the Federal grand jury and a report will probably be made at the next meeting of that body.

The inquiry of Mr. Dennison has been made in spite of many handicaps, but it has been thorough, and he was warmly recommended by U. S. Attorney O'Connor to Mr. Richards as the man to undertake the oil investigation. He is expected to have a report ready for submission to Washington by February 1, 1920.

ARREST TWENTY-ONE.
Police Batter Way Into Three Places and Bag Inmates.

Headed by Detective Lieutenant U. L. McIntosh, commander of the Chinatown squad, a dozen patrolmen early yesterday morning battered their way into three places in and near Chinatown and placed twenty-one men under arrest. All the prisoners are charged with conducting or visiting a lottery game.

The three places raided are: A two-story frame house at 111 Arcade street, where fifteen men were taken into custody; 408 Sanchez alley, where four persons were arrested, and an establishment on Central avenue, conducted by Tom Wah, where two men were arrested.

According to Detective McIntosh, lottery tickets were being played in all three of the establishments raided and a quantity of lottery material was seized.

PROFITEERING PRODUCERS AND WEINSTOCK BLAMED.

Investigators Find Price-Boosting in Face of Overproduction; Also Hit Chicanery in Sugar Deals.

An abnormal increase in production, and at the same time an abnormal increase in prices, is the situation in this part of California, according to the findings of James P. Britt, municipal market superintendent, and Thomas Foss, chief investigator for the City Prosecutor's office, who have been conducting an investigation, authorized by Mayor Snyder, regarding food products in cold storage and warehouses, and the high cost of living.

A report of these investigators, which was submitted to City Prosecutor Widney last evening, and which he will transmit to the City Council this morning, sets forth that there is manipulation in the purchase of sugar which permits the buying of large quantities; that there is a restraint of trade, through the actions of some wholesalers in compelling retailers to sell certain commodities at a fixed price, and that the producers' organizations, fostered by Col. Harris Weinstock, State Market Director, fix the prices of their products at higher figures than last year, notwithstanding the fact that there has been a general increase in production of foodstuffs in California, and that it is now exporting to all parts of the country.

The report of the investigators says: "In the course of the investigation of the food survey, as requested by the resolution of the City Council, we have visited a great many different warehouses in various parts of the city."

"A great deal of information has been given to us which we have carefully investigated and summarized, some of which we are taking up with the Federal authorities. In this connection, we desire to say that while we feel that the Federal government may be in possession of the facts that we have, we believe it is our duty to lay before the authorities whatever we may find in our investigation."

"Considerable has been said with reference to the difficulty in obtaining sugar in quantities. We are in possession of information of a very positive and convincing nature which shows that sugar has recently been purchased in quantities, such as two or three 100-pound bags, without any great difficulty. This was done by first paying a visit by the intended purchaser to one of the large sugar refineries and requesting a considerable amount of sugar. He was informed that this particular refinery could not sell him any sugar, the statement being made that they did not have it on hand, but he was referred to a certain broker, through whom he was able to buy all the sugar he wanted. This sugar, we are informed, came from the refinery that he visited prior to calling on the broker. We were also informed that this same broker had sold and purchased was carried out to a number of others buying considerable sugar."

"The facts covering these cases will be laid before the Federal authorities. During the course of our investigation we find that there are a great many contributing causes to the high cost of living, which we know is a stern reality. We find that there is clearly a restraint of trade on the part of some of the wholesalers in compelling the small retail grocers to sell at a certain fixed price."

"The investigation will be continued and all developments promptly reported."

WOULD END DEBIL.
Edwin H. Snyder, 55 years of age, of 1511 Glendale place, early yesterday morning attempted to end his life by swallowing a quantity of poison. At the Receiving Hospital, where Snyder was rushed for treatment, police surgeons stated that he may not recover. Ill health, according to friends, was the cause of Snyder's act.

Some Early Hints for Christmas.

"I MADE IT ALL MYSELF."

Charming Gifts Available for Women with Deft Fingers.

The things that you can make are usually the most appreciated gifts. A tour of the shops shows that a woman with deft fingers can fashion the most delightful of remembrances.

All stamped and ready to embroider are breakfast and luncheon sets, dainty dillies and dromedars, giddy little guest towels, soft sheer night robes, frivolous pajama suits, all sorts of aprons and quaint little caps. There are bags for laundry, bags for hankies and bags for this and that, wee dresses for best and swanky little playtime frocks.

If you don't care to embroider there are dozens of suggestions for those little accessories of feminine vanity which make fairly inspired gifts. Why not fashion a pale colonial nosegay, done in ribbon bows, to give a glimpse of color from under lady vesties or adorn lingerie? A bewitching one has for a sister a pink ribbon rose, surrounded by tiny blue and pink ribbon forget-me-nots, the whole circled with a little lady's frill.

A perfectly adorable bow to adorn a party petticoat is made from turquoise blue ribbon, fashioned into an elaborate lever's knot, corded to keep its shape and interlaced with the faintest of pink ribbon roses.

Handy fashioned are the rose-drap vases, made of sat-

in with a tiny powder puff concealed inside. And coquettishly hid behind a lace and ribbon flower trimmer. Some are decorated with tiny poodles in purple and gold, others have a cluster of wee violets and perfectly exquisite ones of delicate pink satin have a single wild rose in darker tones of pink concealing the tiny mirror.

Equally charming bits of hand work are the adornments for the dressing table. Why not make an innocent looking little rose pot, all concealed from curious eyes with lace and ribbon? Or a powder jar peeping out from fastenings of silk flowers? Or one of the newest set sachets, three plump little cushions of richly colored silks tied together with ribbon of the same shade with a cluster of ribbon roses thrust through the loops?

SUB FOR APPLE PIE. Sometimes people who are fond of apple pie refrain from eating it because they don't agree with them. A delicious dessert is made by preparing some apples in the usual way for stewing. Put them into a deep pie pan with a sprinkling of sugar, according to their tartness, and the strained juice of a lemon. Cover with fine bread crumbs, pour a little milk over them and bake until the apples are soft and the top nicely browned.

FRUIT BABIES.

Some delicious little fruit babies are sold in one of the shops that has made a name for itself as the home of unusual sweets. Each stands three or four inches high, and each has for a pedestal a square sand cookie. The little fruit baby is made in this way:

His two feet are two almonds, implanted firmly in the cookie before it is baked—with pointed toes, and rounded heels, of course. The two legs are two plump figs that, by means of pushing and pulling, have taken on themselves the outline of the full breeches of the small Dutch boy.

The body, like a loose blouse, is a bigger fig. The arms are strings of raisins—four or five—that end in hands made of a half of a shelled peanut. The head is a big, square caramel, the face part white, with rich chocolate features, the hair part brown. A tiny cap made from a piece of a fig is perched rakishly over one corner of the funny square head.

HOUSEWIFELY HINTS

If your cakes burn, do not try to cut or scrape off with a knife. Get the nutmeg grater and grate all over until they are a golden brown. When grated enough turn upside down to shake off the burned particles.

Shredded coconut may be made as juicy as fresh coconut by soaking it in sweet milk for a few moments. When ready to use press the milk out gently.

When preparing cornmeal mush fry your fat in a shallow pan. The mush cooks quickly and the slices are a good shape to fry, as there are no corners to break off. Wet the mush first in cold water to prevent the mush from sticking.

If you will line the pan with waxed paper when baking fish there will be no disagreeably sticky dish to wash afterward.

Add a cupful of cooked rice when making beef loaf, and the chopped meat will go further, the loaf will be moist and slice firmly, and will have a new flavor.

When baking potatoes cut the large potatoes in half, just before putting them into the oven. By doing so one uses much less gas, the potatoes can be prepared more quickly and will never be hard in the center, as is often the case with large potatoes.

When grinding stale bread crumbs or crackers in the food chopper, use a paper bag on the end of the grinder and snap a rubber band around it. This will prevent getting the crumbs on the floor.

If you haven't a food grinder and want to grind bread, put it into a muslin bag, an empty salt sack, for instance. Unless too dry and hard, it can be squeezed between the fingers and quickly crumbed without any waste.

In making a fruit cake, pour half the batter in the pan before adding the fruit, then the fruit will not be found at the bottom of the cake.

If too much salt has been put in the soup add slices of raw potato. After the pieces of potato have boiled for a few minutes, remove them. If the soup is still too salty repeat the process. You can be generous with the potatoes, for they can later be browned or creamed for another meal.

Only One "BROMO QUININE." To get the genuine, call for "BROMO QUININE" which has the "B" logo. It is the only one that cures a cold, fever, headache, and all other ailments.

HORRORS OF WASH DAY.

With the prevalent scarcity of help and the high wages demanded by laundresses when they can be secured, many Los Angeles women are finding out for themselves that washing clothes is far from being the easiest or the most pleasant work in the world.

Of course those who have electric washers, wringers, dryers and every imaginable convenience may truthfully say that they enjoy washing, but those who have to be content for the present at least with the ordinary equipment of tubs and washboards will find it difficult to get much joy out of "wash day."

However, a little bit of system helps a whole lot toward making it less disagreeable and saves many weary backs and disarranged tempers and the following suggestions may prove a real help in tempering the drudgery.

Monday used to be the traditional washday; but women have got away from that fetich and realize that Tuesday or any other day is really better. Then they can have their Sunday in peace and quiet without counting, sorting, soaking and sleeping the wash for Monday; or, if they had conscientious objections to doing that, attacking the laundry without any preliminary sleeping to loosen the dirt.

Before putting the clothes to soak they ought to be sorted up, household linen in one pile, white clothing in another, very solid things, such as dusters and floor cloths, in a third, colored goods in a fourth and woollens in still another heap.

The last should not be stepped. Then all stains ought to be taken out. To do this adequately each kind should have its special treatment with one or other of the following, which are the chief solvents for removing stains. Many are inflammable and most are poisonous, so great care should be taken in their use and storage, and where there are children, kept under lock and key.

The following are inflammable: Turpentine, benzine, naphtha, kerosene, ether and alcohol. These are powerful solvents, but should be used with care. Chloroform, creosote (also called salicylic acid) and Javelle water. The rest are more or less safe, but not desirable food, on the whole. For children: Puller's emulsion, French chalk, ammonia and borax.

Besides these some stains call for applications of milk, lemon juice, vinegar, olive oil, lard and salt.

It might be as well before going any further to speak about the more ordinary stains and how they can be taken out. If you will cut out these directions, paste them on a card and hang them in the cupboard where the laundry supplies are kept, you will have them right at hand when needed and save time, fuss and steps.

BLOOD STAINS. Steep indurated water until the water has become very much discolored, rinse and soak again until the stain is a faded brown, then rub well with a good naphtha soap and leave steeping. Never use either very hot or cold water, as either will tend to set the stain. If it refuses to come out, apply a paste of raw starch to the stain, renewing it from time to time until it vanishes. This is the way to get it out of heavy, thick material.

INK. If the stain is fresh, milk will generally take it out, changing the milk frequently, as necessary. Milk is really the only solvent for ink that is quite safe to use on colored goods, for most of the others will take not only the ink but the color. Javelle water will remove old stains in most cases. The spots should be steeped in it for a few minutes, then rinsed quickly in clear water, for the Javelle water affects the fiber of the cloth and leads to holes.

COFFEE, CHOCOLATE, FRUIT. These stains all can be treated in the same way. Spread the stained part over the top of the bowl and shake a thick coat of borax on the

surface. Pour boiling water through the spot holding the kettle at a height so that the water will strike the stain with considerable force. Soap sizes these stains.

CREAM. The stain of cream comes out very easily with cold water and soap.

GREASE. The method of removing these stains changes according to the kind of grease. Some will come out with warm water and naphtha soap; benzine, alcohol, turpentine, oil or lard all generally take out old grease, and chloroform or ether will remove the stain and not injure the most delicate colored fabric.

GRASS STAINS. If the stain is fresh and if there is no color to be injured ammonia water is the most certain. If it has been left long or there is any danger of fading, soak in alcohol and rub. Warm water and naphtha soap may do it, and if they fail a paste of soap and bicarbonate of soda applied and left over night. This almost always succeeds and does not fade colored material.

PAINT OR VARNISH. The spots will usually come out with turpentine, even if the paint has been allowed to get dry and hard. With delicate colors it is safer to use chloroform. Treat paint and varnish stains with lard or olive oil and then wash straight out with benzine.

PERSPHATION. Soaking the stain in bicarbonate of soda for twenty-four hours before washing is a good way to remove these stains, but it is not always successful. If you find it has not completely gone when the washing is done, expose to strong sunlight.

If the goods are colored sunshine is liable to fade them, and a very weak solution of Javelle water can be tried.

MILDEW. Of all the stains in the whole category there is nothing quite so hard to manage, but lemon juice and strong sunlight will probably take it out. Starch, lemon juice, soft soap and salt mixed together into a paste spread on the stained linen and left in the sun is more certain, or rather less uncertain, for the real truth is that mildew is almost impossible to remove.

TEA. Either borax or glycerin and washing in warm water.

Iodine and Medicine. Soaking in alcohol will unusually take out these; but sometimes iodine has to have an application of either chloroform or ether.

WHITENESS. This can be taken out with vinegar.

EGG. Soak in cold water and rub. Hot water takes this into the fibers of the goods and gives you much trouble and work.

Javelle water can be bought ready made, but it is perfectly absurd for a woman who has much washing to do not to make it for herself. The following are the ingredients: One pound of washing soda, 1/2 pound chloride of lime, 1 quart of boiling water, quart of cold water. Add the boiling water to soda and let it dissolve. Dissolve the chloride of lime in cold water and when it has settled strain off the clear solution into the soda solution. Let it stand until all the sediment has gone to the bottom and then strain off the clear liquid into bottles, cork tightly and store in a cool place. When needed for removing stains do not use plain, but dilute with at least an equal quantity of water; and do not leave the goods more than twenty minutes in the solution. Rinse thoroughly in several waters, adding a little ammonia to the last.

The ammonia that is put up for toilet and household purposes is an extravagance when much is used. The thrifty woman will buy concentrated ammonia at the drug store

THANKSGIVING TURKEYS

CORN-FED—FROM IMPERIAL VALLEY

Naturally at this time of year your thoughts turn to TURKEY—and, although you know you want a GOOD one, you should give a thought to what makes good turkey.

QUALITY of course is the first consideration, and that always means YOUNG'S—a word about YOUNG'S TURKEYS. Each and every one has been carefully raised in Imperial Valley, where the finest turkeys are raised, and has been properly and carefully fed on CORN. Then they are FRESHLY dressed, assuring you of a FRESH, TENDER, PLUMP BIRD.

Sanitary Dairy Company, Los Angeles, California

NOTE—As all dairy cattle in Southern California are fed on alfalfa hay, which contains no drugs, the milk is pure and healthful.

Best and Cheapest in the United States

Owing to the rise in price of milk by the producers, together with the shortage of and high wages paid to the men who make an advance in the retail price of milk. Therefore, commencing November 1st, 1919, and until further notice, the following prices will be effective:

1 Pint Milk	10c
1 Quart Milk	18c
1/2 Pint Coffee Cream	10c
1/2 Pint Whipped Cream	10c
1 Quart Buttercream	10c

We realize that it is to our interest to sell our milk as cheaply as is consistent with present conditions, and in the consumption of milk will increase the cost of delivery. We should use all the milk they can secure, as it is the best food that can be purchased. Milk in Los Angeles is the best in the United States, as shown by the following table, made in the September, 1919, Government milk survey.

Milk

—the best food for body and brain

CHILDREN cannot grow into healthy men and women unless the food they eat contains five necessary things: the body building material (protein), fuel (carbohydrate and fat), body regulators and bone builders (mineral matter), and the essential growth substances (vitamines).

Children must eat foods containing body building protein. When this substance is eaten, it is changed into muscles, blood and other tissues of the body. It builds new muscles and repairs the old. The rapid growth of the children makes it necessary that they have more protein for their size than adults. Mothers cannot select, with safety, the body building material (protein) from any food for their children's meal, for numerous experiments have shown that the protein in different foods varies in its ability to build the body. A pound of protein from cornmeal or wheat, for instance, lacks a great deal of being equal to a pound of protein from milk.

Children must eat foods containing body building protein. When this substance is eaten, it is changed into muscles, blood and other tissues of the body. It builds new muscles and repairs the old. LIVING-ROOMS THAT GROW.

Furniture is so high in price nowadays that many women are lamenting that they cannot afford to furnish their homes as they wish, but they can be comforted with the thought that living-room comfort is not brought about by period furniture all in harmonizing design, and that the ready-made living-room has to be seasoned by use. It must be embellished by the touch of that, by the accessories that fit the personality and comfort of members of the family, just as a man's fire-side chair becomes a more boon companion as the years go on and he is loath to give up his oldest slippers.

The living-room, planned and furnished at one time by a decorator, needs a great deal of attention before it becomes a possession, and the woman whose living-room needs to be "added to" stands a better chance of having a room that has a definite personality and charm. She need not be discouraged because there are a few vacant spaces. When there is room to place a desk, just the right kind of a desk will be found some day after patient waiting. And if you haven't an abundance of lamps, when you do discover the kind of a lamp you've always wanted you can get it with joy and thanksgiving.

It's really well to go slowly on the furnishing of your living-room, if you have a certain amount of money to spend to use it for one piece of really good furniture instead of several, and patiently wait until next year for the rest. Think how much better furniture you'll acquire to be proud of in your old age.

It's such fun to be on the watch-out for the occasional piece of furniture that's going to mean such a lot to you always. And you'll be so glad when you've found it that you've room for it in a room that is not cluttered up with a lot of furniture for which you really don't care. You're glad when you discover the chair with the graceful lines and the lamp with the beautiful coloring that you didn't buy that chair that you really didn't like, but which tempted you because of its low price, and that you have had the courage to go without a lamp until you could find one that fitted into the ideal living-room you've had in mind.

The woman whose living-room grows gradually into an attractive expression of the personality of herself and her family has enjoyed the pleasure of anticipation, as well as realization, and her home will have a charm that the room done by a professional decorator can never attain.

—right in your own neighborhood is your Acme, prepared to serve you with grocery needs, splendidly, efficiently, and to your satisfaction.

—ready to supply the many little things which are needed to make the Thanksgiving dinner the success you've planned.

—a waste of time, of effort and of money—to go to distant points when you've an Acme so near—so ready to give you the highest type of grocery service.

Cranberries —not merely cranberries, but freshly arrived ones, superior to any offered this season. —the lb., 17 1/2c.

Pumpkin—Del Monte —for delicious pumpkin pies. No. 2 1/2 tin, 12 1/2c.

Butter—Acme Butter —butter that you'll enjoy having on your table.

Mince meat; puddings, in tins and cartons; nuts; raisins; apples; figs; candies; cider; grape juice.

—you'll find your Acme just loaded down with good things for the table.

—Be glad you have an Acme near you.

No Turkey dinner complete without PERFECT CREAM DOUGHNUTS

—the kind that'll melt in your mouth—that'll just top off to the queen's taste all the corn-fed turkey 'n fixins'. So you can get 'em fresh from the kettle we'll keep open till 1:30 tomorrow afternoon—and tonight you can carry 'em home till midnight. Put a little dough in our doughnuts and give your palate something to be thankful for—

FOR YOUR TABLE ON THANKSGIVING.

Thanksgiving Centerpiece—Select a large, well-shaped pumpkin, wash carefully and cut to form a basket, leaving a handle. Fill the pumpkin basket with fruit. Bright colored apples and grapes are very pretty.

Pumpkin Punch Bowl—Either use a pumpkin, cut as suggested above, or cut one in half. Slip a china dish in the cavity of the pumpkin and serve the punch from this dish with a ladle made from a small gourd.

—BLONDE SWEETHEART—STORY WINS DIVORCE.

MRS. BURNS TELLS OF SEEING HUSBAND COMING HAIR OF OTHER WOMAN.

While playing detective Mrs. Tillie E. Burns watched her husband, Jack W. Burns, former racing driver, and a nurse, described as "Jack's blonde sweetheart" in her cross-complaint to his suit for divorce, sitting on the floor.

"He was coming her hair," Mrs. Burns told Judge Taft yesterday, "and now and then he would kiss her."

Mr. Burns, she continued, would often say to her: "That blonde sweetheart of mine is sure worth while."

Mr. Burns charged his wife with cruelty because she caused his arrest for an alleged offense against his sister-in-law. The charge fell through, it appeared. Judge Taft, in granting Mrs. Burns a divorce, ordered Mr. Burns to pay his wife alimony of \$15 a week.

WITH A FRENCH BRIDE.

George E. Marshall, son of Mrs. Sarah E. Marshall, of 620 Westmoreland place, has just returned from overseas with a French girl for his bride. Her name before her marriage was Miss Germaine Minet, and Mr. Marshall met her in Paris, while on duty with the Signal Corps, and the wedding took place in the French capital April 2.

Before going into the service, Mr. Marshall was a director at Universal City, working on Harry Carey western pictures. He enlisted with the Third Battalion, Signal Corps, and was sent to Fort Leavenworth, Kan., in February, 1918. From there he was transferred overseas.

On the return voyage he and his bride came back by passenger boat, he being in charge of valuable records which were turned over to the War Department upon his arrival. He is now a director at the Ruth Roland studio, Eighteenth and Main streets.

FINAL SUMMONS FOR WELL-KNOWN DIVINE.

ALBERS OLIVE MINCE SANDWICHES AND SALADS

Try This

ORIGINAL SALAD: Wash and crisp a head of lettuce. When ready to serve, separate and mix well with slices of juicy apple. One good-sized apple to a large head of lettuce will serve four people. For a dressing, use one cup stiff mayonnaise, three tablespoons Olive Mince, two tablespoons tomato catsup, half teaspoon paprika, one level tablespoon sugar, and, if liked, a tablespoon chopped parsley. Simply dot the apple and lettuce with prepared dressing. It is delicious.

OLIVE MINCE is made from the meat of California olives, blended with a mass of our own origin, spiced sufficiently to give zest to the flavor. No filler used.

SAN GABRIEL A PIGLESS TOWN.

Voters Decide in Favor of Sanitation Laws.

Recall of City Trustees is Complete Failure.

Election Ends Bitter Fight in Mission Village.

(LOCAL CORRESPONDENCE.)
SAN GABRIEL, Nov. 25.—Polling was held in San Gabriel when the voters decided that the park would have to seek a suburban home, outside the city limits.

Local feud in communities near Los Angeles in which annexationists have carried their battle to the ballot box have been of quite frequent occurrence, but it has remained for the quiet and quaint old mission village of San Gabriel to get all "hot up" over disputes emanating from the camps of sanitationists and anti-sanitationists.

But this is just what has happened yesterday after an all-day stormy battle the voters determined that their present city officials have acted wisely and at a recall election decided by a decisive vote to retain them all, and with them the laws they have enacted which makes sanitary plumbing necessary and drives from the corporate limits the pigs and goats and other animals of the dairy and farm.

PASSING OF THE FIG.

The election marks the passing of the pig and the going of the goats and forces a radical change in the life-long habits of many of the old residents who resent what they have termed "the encroachment of new-fangled ideas" upon their personal liberty.

Several weeks ago the village trustees passed an ordinance declaring sanitary plumbing necessary and made it a criminal matter not to obey the ordinance. Another law was passed on the books relating to the regulating in some instances and abolishing in others, of the habit of keeping certain stock within the limits of the town. A citizens' committee visited a session of the trustees to register a complaint and it is said received scant consideration. Several residents have been arrested and heavily fined for failure to install sanitary plumbing. Ex-service men returning home protested that the city marshal was of German birth and spoke with a Teutonic accent. Nothing was right—everything was wrong.

It was finally decided to recall all the city officials with the exception of the treasurer and begin all over again. The dissatisfied ones, under the leadership of P. Nougier, filed a petition for the recall of the trustees and submitted a list of names of men to take their places who were pledged to see to it that a new marshal, health officer, city clerk and other officials were appointed and to stop enforcement of all recently-enacted ordinances.

But the election of yesterday has blasted the hopes of the opposition who, for the time being, at least, will have to abide by the "blue laws" and be governed by what their adversaries termed a "local soviet," dominated by a city clerk who was compared to Trotsky.

MEXICAN BULL FIGHT IS VERY TAME AFFAIR.

MATADOR CHEATS THE BUTCHER IN EFFORT TO AMUSE THE BIG CROWD.

(LOCAL CORRESPONDENCE.)
MEXICALI, Nov. 25.—Bull fighting was revived here Sunday.

Two thousand Mexicans and Americans madly applauded when the matador stuck his sword into the necks of three bulls, hoary with age and devoid of fighting spirit.

Two weeks ago President Carranza reversed his edict of two years ago prohibiting bull fighting in Mexico City and allowed a fight at which 15,000 persons were present. Following the edict of President Carranza, arrangements were made to revive the bull fighting game in Mexicali, with the resulting fight Sunday.

Difficulty in obtaining wild bulls was overcome by the purchase of several tame bulls which were brought to the slaughterhouse and they were killed for the benefit of the crowd. A permit from the municipality was issued allowing the exhibition, the municipality receiving a portion of the gate receipts.

A large party from El Centro, who had been attending a basketball game at which two boxing bouts had been staged arrived and were given a blanket permit to cross the line. Most of these attended the bull fight and many came away disgusted as the tame bulls refused to fight and either ran away from the matadors, or refused to make the customary lunge.

Several of the Americans were disgusted with the fight and left the ring. However, the Mexicans apparently enjoyed themselves and howled for more.

The bloody spectacle also proved too much for the boxers and they left the ring.

RANCHERS ASSIST COUNTY OFFICIALS.

(LOCAL CORRESPONDENCE.)
POMONA, Nov. 25.—A meeting of property owners along each side of the channel of Chico Creek has been called to consider the establishment of two voluntary flood control districts on either side of that water course.

It was stated at today's meeting of the Chamber of Commerce that the county already had a "steam shovel and a pile driver at work in the wash north of the Santa Fe tracks and that for the completion of the work a committee was obtaining assessments from the mouth of San Antonio Canyon to the Chico channel. This committee, it was stated, was working under an agreement with the property owners that these assessments were not to be delivered until a continuous chain had been secured and the supervisors had promised the county aid in protecting the west bank.

No official promise, said Mr. Nichols, chairman of the road committee, had as yet been obtained from the San Bernardino County supervisors as to the financial aid of their county for the east side of the proposed work, but it was expected that they would coincide with the wishes of the property owners. The assessments, according to information, are to extend for seventy-five feet on either side of a center line.

OFFICIAL IN FAVOR OF TRADE EXPANSION.

(LOCAL CORRESPONDENCE.)
LOS ANGELES HARBOR, Nov. 25.—Samuel G. Vasquez, Mexican commercial agent for Southern California, has left for Mexico City to report to his government the possibilities connected with the opening of a fish agency here to permit extensive fishing in Lower California waters by American fishing boats.

Various Southern California chambers of commerce have endorsed a plan by Senor Vasquez, which includes in San Pedro, and an inspection station at San Diego. He also advocates the permission of the Mexican government to establish permanent fishing camps on the islands off the Mexican coast.

John B. Toomey of Ontario, president; Rev. C. R. McKee of China, vice-president, and Mrs. William Laidlaw of Ontario, secretary-treasurer.

Division superintendents elected for the coming year were Mrs. W. O. Conley, Ontario, elementary department; M. J. Wilkenberger, East China, boys' work; Mrs. M. W. Jackson, Ontario, girls' work; Miss Sarah Williams, Upland, adult Bible class; Mrs. Elizabeth Moore, Upland, teachers' training; John Whitson, Cucamonga, temperance; Mrs. Allison Blake, Ontario, missions.

COMMUNITY DINNER.

Residents of Fruitvale to Celebrate Thanksgiving Day.

(LOCAL CORRESPONDENCE.)
FRUITVALE, Nov. 25.—This community, situated northwest of Hemet, has decided to give a municipal Thanksgiving dinner. A committee representing the entire community has had charge of the buying and has already purchased a large stock of turkeys and cranberry sauce, in preparation for the event. Mince and pumpkin pies figure largely in the bill of fare. Practically every one in town is to be seated at the tables which are to be set under the oaks in a grove in the neighborhood. If the day is fine, and inside in the schoolhouse if the weather is unfavorable.

**HAYNIE CLOUTS
GEORGE SHADE**

Deals Out a Neat Trimming to the Newcomer.

Jack Dempsey, World Champ, Introduced to Fans.

Crowd Gives the Great Pugilist Hearty Welcome.

There were some good fights at Jack Doyle's last night, but they weren't the main thing on the programme. Charlie Murray, one of the greatest introducers extant, entered the ring after the semi-undisputed and announced a series of famous visitors who were present at the Vernon arena.

First came Jack Dempsey, champion heavyweight fighter of the world. Then in rapid order Jim Jeffries, Jim Corbett, Kid McCoy, Jack Keenan, Leslee Cross and Charlie Epton. All were received with roof-raising bursts of applause.

CHEER JACK.
After some flowery remarks about the man who had made prohibition possible, Jack Doyle, himself, was introduced and got a big cheer from his 1000 steady customers.

Robert Edgren, sporting editor of the New York World, was introduced. Then "Boss" Walker, Ed Norton and Ed Moriarty entered the limelight.

After Charlie Murray had introduced until he was out of breath and all of the celebrities were standing in the ring, some gent in the gallery suggested a bottle royal. This lured up the meeting and the champions scattered to the four corners of the mat.

HAYNIE ALL THE WAY.
Oh! yes, the fight, Frankie Haynie came through with his heralded come-back and out fought George Shade during four rounds of swift and very fair boxing. Shade started well in the first round and gave a creditable showing in the fourth, but Haynie had him all through. Haynie's left and his ability to duck turned the trick. Several wicked swats aimed at his chin landed on this air. Shade was apparently around for a knockout, but Haynie gracefully sidestepped.

All of 'Em Good for One Hundred Miles Per Hour.

The photograph (above) shows Joe Thomas, C. H. Kirkpatrick and Arthur Klein bunched up as they are going into a turn in a preliminary lap on the Ascot Speedway. Ira Vall (below) turned some sensational laps yesterday and promises to be in the running when the racers get the starting flag tomorrow afternoon. Qualifying times indicate that the Thanksgiving Day All-Star Sweepstakes will be one of the fastest battles ever staged at Ascot. And that is going some. The interested spectator on the extreme left of the lower cut is H. Wier Cook, American ace and flight commander in Eddie Rickenbacker's squadron of flyers in France, who was an interested observer of the tryouts yesterday.

RECORD ATTENDANCE TO SEE GRID GAME. SPEED MERCHANTS QUALIFY

JOE BOYER TURNS FASTEST LAP IN TRY-OUT FOR ASCOT AUTO CLASSIC.

BY WARDE FOWLER.

That there will be all the speed in the world in the Thanksgiving Day all-star sweepstakes tomorrow afternoon was proved yesterday, when Joseph Boyer, in a Frontenac, turned a lap of the course in 44 seconds flat. This is one of the fastest miles ever reeled off on the Ascot Speedway.

This burst of speed was turned loose by Boyer in qualifying for entrance into the race. Thirteen other speed cars were on the course during the day, and six of them passed the qualifying tests with ease. The remainder will qualify this morning.

IN HARD LUCK.

Two of the big racers ran into hard luck during the workouts yesterday afternoon and were eliminated from the classic. Ed Kaster, a mechanic, in one of the big Stutz cars, smashed up and was dropped from the lists. One man is dead and two others in critical condition as a result of these accidents. A full account of the smashup will be found on Page 1, Part 2, of this issue.

The six drivers who qualified yesterday are as follows: Boyer in a Frontenac, 44 seconds flat; Durant, in a Chevrolet Special, 45 3-5 seconds.

TO PLAY ALL-WESTERN.

VANCOUVER (B. C.) Nov. 25.—Announcement was made today by the Vancouver Rugby Union that an all-western team of college Rugby players will be here for games during the Christmas holidays. Players from Leland Stanford University are to attend.

DAILEY SUSPENDED.

SEATTLE (Wash.) Nov. 25.—Ervin Dailey, captain and right half-back of the University of Washington football team, probably will not play in the Thanksgiving Day game here against the University of California. It was said tonight. Yesterday Coach Claude Hunt suspended Dailey for three days.

RANCHER MAKES BID FOR SACRAMENTO.

SACRAMENTO, Nov. 25.—L. Moreing, wealthy rancher, said today he had made an offer to the owners of the Sacramento club of the Pacific Coast Baseball League for the purchase of the Senators. Moreing declined to make public details of his offer until there has been action by the club's directors.

Moreing said if he purchased the Sacramento club his brother, Charles Moreing, would be associated with him, and William (Bill) Rodgers would be retained as manager.

QUAIL AND NO QUAIL.

How would you like to secure the limit of quail, start for home secure in the knowledge of a good day's sport, only to find on your arrival that the quail had vanished. That's what happened to M. C. Nason, a Hollywood hardware dealer, yesterday. Nason had secured the limit in the Antelope Valley. He laid his hunting coat in the back of his car, but coming down the Bouquet Canyon he believed that "it was bounced out. He hopes the finder will have a good mess of quail, but would appreciate the return of his coat."

SHOOK AGAIN.

Shook won from Kirkpatrick by a score of 86 to 79 at the Nelsms and Bird billiard parlors last night. Dagne will meet Shook tonight.

Tigers Invade Tucson to Claw the Arizona Wild Cats.

VAN TO MANAGE HAMMER.

It may be little Billy Van in private life, but from now on it's going to be big Billy Van in the boxing ring. Billy has branched out into an honest-to-goodness, real manager, and will have no dual under his protective wing. Came here recently one Young Hammer, a pretty nifty piece of fighting machinery from the East. As soon as Billy glimpsed this bird he grabbed him and is now ready to pit him against anything in the lightweight division in this neck of the woods or north of the Tehachas.

A TOUGH BIRD.

Hammer has a record that should make him a tough customer for the best of them. It took Benny Leonard twelve rounds to stop him, Johnny Dundee fifteen rounds to beat him, and Freddie Welsh sixteen rounds.

Hammer has also fought Tommy Richards. He beat Tommy in their

first match and when they met again Tommy boxed him to a draw. Hammer has also fought Lew Tander, Ad Wolgast and New York Patrizi.

BIG POLO GAME AT MIDWICK TOMORROW.

The midweek polo game at the Midwick Club will be played tomorrow afternoon at 2:30 o'clock. There will be a turkey shoot in the morning, with turkey for both men and women gun cracks. A Thanksgiving dinner-dance is scheduled for Saturday evening.

OXY TO TAKE ON WILD CATS.

Stanton and His Tigers Leave for Tucson.

Coach McKay Sure Arizonans will Cop Game.

Fred Curtis, Right Half, Only Man Left Home.

The Occidental variety, accompanied by Coach "Fox" Stanton and Manager Harold Dryden, left yesterday for Tucson, Ariz., where it will tangle in a Thanksgiving bill with the University of Arizona eleven.

The Tigers hope to prove that they have a better eleven than Pomona by defeating the Wild Cats by a larger score than did the Sage Hen. The latter won from Arizona 19 to 8.

CURTIS LEFT. Sixteen men are being taken on the trip. Fred Curtis, the Oxy right half, is the only man who started in the Pomona contest that did not win the Fullman journey.

Arizona had an unblemished record until the bustling Sage Hen made a trip to Tucson and walked off the field with the smiling end of the score. Coach McKay of Arizona is so anxious to prevent a duplication of this defeat that he made a special trip to Claremont last Saturday to see the Tigers in action. He promised the Tigers a defeat before he left for home.

HERE ARE TIGERS. Following are the Tigers who took the Arizona journey: Powers, center; Dunlap, right guard; Hiltch, left guard; Walker, right tackle; Fuller, left tackle; Long, right end; Grube, left end; Madden, quarterback; Norton, sub quarter; Betts, right half; Smith, left half; Kirkpatrick, full-back; Kendall, sub full; Pitman, sub guard; Root, sub guard; Pitman, sub guard; Pearson, sub tackle.

MELVIN H. SYKES. Photographs. Anniversary of Chicago, specialists in children's pictures, now located in "Mallard" Theater Building.

HIGHS TO BATTLE HARD.

The high school football situation reaches a critical stage next Saturday afternoon with the playing of two contests. Long Beach meets the Santa Monica High eleven, probably at Washington Park, and the husky Fullerton team will line up against Citrus Union, the winner of the Central League.

The winners of these two conflicts will face each other the following Saturday for the championship of Southern California. The dope makes Fullerton and Long Beach the logical teams to fight it out for the title.

NEGLECT CITRUS. The schedule-makers have neglected the interests of the Citrus League in their arrangements. At least, that's what Redlands and San Bernardino, who played for the championship of their league tomorrow, allege.

The C.I.F. made a rule that all

championships must be decided by November 22, but the Citrus League officials declare that they never received any such notice. Consequently it looks as if the Citrus folks will either be ignored or a post-season game arranged.

TO BRING SCOTT. It is unlikely that the latter course will be pursued, if plans which are in the making to bring Scott High School from Toledo for an East vs. West game on Christmas Day are consummated.

Either Long Beach or Fullerton is quite willing to sacrifice big Christmas dinners for the sake of playing against the Eastern prep champions. Scott High School officials feel that their team is about the finest thing in the way of a football machine in the United States and have so expressed themselves. Southern California is willing to bank its roll on the winners of the C.I.F. championship.

BOWLING NOTES.

The "lucky seventh," a ball fan's hope and a bowler's delight. The seventh week of play in the Southern California Bowling Association tournament resulted in each of the five matches being won by the odd game, the old whitewash brush being pushed aside for a later date.

The best bowling of the week was in the match between the Harris & Frank and the Knock 'Em Dead Gene Murphy teams, the former winning the match by rolling 1681 in their first game. Firestone had high game, 232, and Schwars high series with 410.

The Majestic Furies continued their winning streak, taking the match from the Fusco Bros. Taxi. The second game resulted in a tie, and it took two extra frames to return the Furies winners.

The Scott Bros. beat the Eldorado Alleys on the latter's home drives, which is some job. Milburn had high game, 242, and high series, 432. The Fred Barman Cigar team, by winning the first two games from the Ship Cakes captured the first match they have won in several weeks, the bowling as a whole being mediocre and below par.

Owens Gray was hitting the wood for a 414 series and led the Fahy-Atterbury team to victory over the Greig Ranch. Fisher was high man for the Ranchers with 381.

The sad, sad news:

RENEE RANCH.

Stanford Frosh to Be Here on Friday.

COME TO MEET THE "BABES" OF UNIVERSITY OF SOUTHERN CALIFORNIA.

(SPECIAL CORRESPONDENCE) STANFORD UNIVERSITY, Nov. 25.—Stanford's freshman team will journey down to Los Angeles next Friday night to meet the "babes" from the University of Southern California, Saturday. Coach "Art" Acker will take eighteen of his team on the trip.

Acker will probably take the same men down for the southern invasion who played in the game two weeks ago with the University of California. At that time the Stanford "frosh" were wiped off the football map by a score of 47-8. However, the game with the U.S.C. "frosh" has been scheduled to give Coach Acker's men a chance to come back if they can. The U.S.C. freshmen were also defeated by California, but not by such a severe score as the Cardinal "babes" were.

There will probably be some changes both in the line and in the back field in the team that starts against the Trojan yearlings although Acker has not made any definite statement. Stanford will be crippled by the loss of its best back, "Bob" Craven, on account of scholarship deficiencies. Craven formerly played for Pasadena High School.

REDS WARN POLICE CHIEF. (BY A. P. NIGHT WIRE) CHEROKEE (Wash.) Nov. 25.—Chief of Police Knisk, an ex-service man, who has been active in rounding up I.W.W. suspects, has received a letter threatening his life. It read: "A.Y.: If you value your skin, leave your I.W.W. alone."

U.S.C. and GOLF TOURNEY FOR JUVENILES.

Big Del Monte Meet Comes Off Tomorrow.

Boys and Girls Under Sixteen to Play on Links.

Association Figures on Event to be Fixture.

(SPECIAL CORRESPONDENCE) DEL MONTE (Cal.) Nov. 25.—No sport on the Pacific Coast has advanced so rapidly in popularity as golf. This is especially true in the last four or five years. Resorts by the thousands have taken up the game, municipal and private clubs have sprung into existence, and competitions of all variety have been staged.

Another step in the progress of the sport and ancient pastime will be staged at Del Monte on Thanksgiving Day when a field of boys and girls under 16 years of age will take part in the qualifying round of the California Junior championship.

RESULTS IN FUTURE. The California Golf Association has announced the event in expectation of great results in the years to come. Most of the youngsters in the sport will be eliminated and only the best will be left to compete in the final round. It is not so many months ago it was a novelty indeed to see a boy or girl play a club. Fact is, golf was known as "old man's game." But it is all changed now. Boys, girls, and even women players, winners of all forms of athletic events are swinging clubs on the links and the influx of youngsters is very noticeable.

SMALL LIST. The prospects are that there will be a large entry for this first round event, but in the course of the year or so the officials of the association are figuring on the event being second in importance to the men's and women's championships. Certainly the competition for the support of all golfers are anxious to see new and younger champions come forth.

Del Monte, which is the golf Mecca of the Far West, is keeping abreast with the advancement of golf. There are eighteen-hole championships held here and they are used to measure the year with competition.

Boys and Girls Under Sixteen to Play on Links.

Association Figures on Event to be Fixture.

(SPECIAL CORRESPONDENCE) DEL MONTE (Cal.) Nov. 25.—No sport on the Pacific Coast has advanced so rapidly in popularity as golf. This is especially true in the last four or five years. Resorts by the thousands have taken up the game, municipal and private clubs have sprung into existence, and competitions of all variety have been staged.

Another step in the progress of the sport and ancient pastime will be staged at Del Monte on Thanksgiving Day when a field of boys and girls under 16 years of age will take part in the qualifying round of the California Junior championship.

RESULTS IN FUTURE. The California Golf Association has announced the event in expectation of great results in the years to come. Most of the youngsters in the sport will be eliminated and only the best will be left to compete in the final round. It is not so many months ago it was a novelty indeed to see a boy or girl play a club. Fact is, golf was known as "old man's game." But it is all changed now. Boys, girls, and even women players, winners of all forms of athletic events are swinging clubs on the links and the influx of youngsters is very noticeable.

SMALL LIST. The prospects are that there will be a large entry for this first round event, but in the course of the year or so the officials of the association are figuring on the event being second in importance to the men's and women's championships. We Have a

"Wear-Ever"
Aluminum
Griddle

A KITCHEN full of smoke and odor of grease is unknown to the woman who uses the "Wear-Ever" Griddle when making that distinctly American and most delicious breakfast dish—griddle cakes.

No grease necessary—and the cakes do not stick, but are browned beautifully and baked thoroughly—light, deliciously appetizing and wholesome.

Heat the griddle. (Some women place a bit of butter near the outer edge of the griddle. When the butter browns, griddle is hot enough to bake cakes.) Then turn down the flame about one-half. Save fuel!

It now is possible for you to get shapes and styles of "Wear-Ever" utensils which have been unobtainable during the war because so many thousands of sets of aluminum have been used in making cooking utensils for soldiers and sailors.

The utensils which gave enduring service there will give lasting service here.

Replace utensils that wear out with utensils that "Wear-Ever".

Look for the "Wear-Ever" trade mark on the bottom of each utensil.

"Wear-Ever" utensils are sold by department, house-furnishing and hardware stores.

SEEKS TO SLAY FORMER FRIEND

Shots Fly in Street After Two Women Have Quarrel.

Assailant Beats Other When Four Bullets Miss.

Says She was Slandered and Lost Her Position.

Angered by stories told about her that caused her to lose her position, Dolores Mendez, 35 years old, of 619 Ducommun street, last night tried to shoot Manuela Marquez, 35 years old, of 624 Commercial street. Failing to hit her after firing four shots from a cheap revolver while crowds of homeward-bound workers watched at Ducommun and Amelia street, Miss Mendez attacked the other woman with the revolver butt, beating her over the head.

Miss Marquez was taken to the Receiving Hospital for treatment. She had a badly lacerated scalp. Her assailant was lodged in the City Jail on a charge of assault with intent to kill.

TALKED ABOUT HER. "She ruined my reputation among my friends and caused me to lose my job," said Miss Mendez at the City Jail. "I suffered more than I could bear."

The two women were friends at one time, according to the police. One day there came a quarrel. Since that time, Miss Marquez has made unpleasant insinuations about her. Miss Mendez charges. A few days ago, Miss Mendez lost her job in consequence of false reports concerning her that reached her employer's ears, she says. Then, she sought revenge.

Meeting her victim in the middle of the busy street crossing, she fired four shots at her with a small caliber revolver. All shots missed although the two women were only six feet apart.

The woman then beat Miss Marquez with the butt of the revolver. Then she fled. The ambulance was summoned and Miss Marquez was rushed to the Receiving Hospital, where it was stated her wounds were not serious.

ON GEM CHARGE.

Man Arrested Here Must Face Accusation at Nation's Capital.

U. S. Commissioner Long made an order yesterday removing Cabell L. Savage, alias Maury O'Connor, who was arrested here recently to the District of Columbia to answer the charge of robbing Mary J. Hughes of jewelry valued at \$30,000 in Washington, D. C.

The offense is one to be dealt with by the Federal statutes, as the District of Columbia is within the jurisdiction of the national government.

RUSH WORK ON FLOOD CONTROL.

Supervisors Tour River Bottoms Where Piles are Being Driven.

Escorted by County Flood Control Engineer Reagan, members of the Board of Supervisors yesterday made a tour of the Los Angeles, Rio Hondo and San Gabriel river-beds from El Monte to Clearwater, where twenty pile drivers, 150 teams and 355 men are rushing flood control work. Twenty piles a day are being driven by each gang in two parallel lines, the space between being filled by brush and the whole reinforced by willows. In the hills 3000 check dams have been built in the washes and 2000 more will be in place by the time the rains start.

DISLIKE TENETS.

American Legion Acts on How with Officers Body.

At a meeting of the Executive Committee of the American Legion at the Armory, following the regular drill, last night, the differences of opinion which have arisen in the local posts of the Legion over the tenets of the officers' body, as at present written, came in for severe criticism. It being charged that they offensively discriminate against the private soldier. The matter was referred to a subcommittee composed of Col. Charles F. Hutchins, Treasurer, Capt. Foster and Sergt. J. E. Merrill, for action. Sergt. Merrill said last night that this action will consist of a recommendation that no officer now a member of the Legion join the officers' association so long as the tenets remain as they are.

CUTS TWO IN GAME.

Angered at Bad Luck, Man Stabs Successful Players.

Angered at his bad luck in a card game, Tiborio Drasca, 39 years of age, an Italian laborer, drew a knife and cut two other players, in a cafe at Alpine street and North Broadway last night. The wounded men are John Ciccinan, 718 Yale street, and M. A. Bernarini, 317 North Broadway. Drasca is held in the City Jail on a charge of assault with a deadly weapon.

Mr. Ciccinan, who is a deputy sheriff, ran to the side door of the cafe, turned and shot at Drasca, but missed. Detective Sergeant Chester Smith and Police Officers Scott and J. Kimbrough arrested Drasca.

GERMANY BARS MANY FATS.

According to a bulletin received by Postmaster Brown yesterday the German government has forbidden the importation of many fats and meats. Under the German order, butter, meats and meat articles, including bacon, crabs, lobsters and oysters, are absolutely "verboten" to use the language of the German circular.

A DISCOVERY THAT BENEFITS MANKIND

Two discoveries have added greatly to human welfare.

In 1855 Newton originated the vacuum process for condensing milk with cane sugar to a semi-liquid form.

In 1885 Horlick at Racine, Wis., discovered how to reduce milk to a dry powder form with extract of malted grains, without cane sugar.

This product **HORLICK** named **Malted Milk**. (Name since copied by others.) Its nutritive value, digestibility and ease of preparation (by simply stirring in water) and the fact that it keeps in any climate, has proved of much value to mankind as an ideal food-drink from infancy to old age.

PLASTERS RUM IN HOME WALLS.

Unusual Method of Hiding Whisky Revealed.

Proves Unavailing; Thirsty Thieves Get Liquor.

Man Accused Acquitted, Two Others are Hunted.

An unusual method of storing \$3412 worth of whisky which proved unavailing to save it from being taken by thirsty thieves, was revealed yesterday at the trial of Casildo Deras, before a jury in Judge Craig's court, on a charge of stealing sixty-six cases from the residence of Serafin Fernandez, 565 Jackson street. It was shown that the whisky had been bought by Fernandez, carefully placed in the walls of his house, and then plastered in. Deras put up a defense that he had been employed by Antonio Borbello and Francisco Lopez to cart the whisky away, thinking it belonged to them. He was acquitted. The other men, who were out on bail, failed to appear in court. Judge Craig ordered their bail forfeited and bench warrants issued for them. Deras said he had buried some of the whisky underground when the two men failed to call for it. He took out a bottle and had his landlord test it. After watching the landlord, he decided it was all right, and drank several bottles.

DAMAGES FOR ANKLE.

Dancer Gets Thousand Dollars for Jazz-palace Injury.

Miss Justine F. Vale was awarded damages of \$1000 by a jury in Judge Myers' court yesterday, because of an ankle she broke in a Venice jazz house. She sued for \$10,490, naming as defendants Frank W. Kurlin and W. E. Jenkins. Miss Vale said her injury ruined her career as a stage dancer. She testified she used the slide rather than the steps in making her exit from the jazz house. Because she thought "it was the easiest way to get out of there." A mat at the bottom of the slide was of balsa wood, she contended, and because of this negligence, her ankle was broken.

HUSBAND DENIES WEALTH.

Although Mrs. Clara G. Lee said that her husband, John G. Lee, is worth \$100,000, Mr. Lee told Judge Craig yesterday that all his wealth consists of an oil station. The court ordered him to pay \$50 at once and \$15 a week until Mrs. Lee's suit for separate maintenance is heard.

FOR CITY PLANNING.

Chamber of Commerce Urges Naming of Special Committee.

A general city planning committee of fifty members, nine of whom shall constitute an executive committee, is recommended to the City Council by the Chamber of Commerce City Planning Committee. The chamber says that the Council take up this matter directly with the Chamber of Commerce directors, and the Council yesterday referred the subject to its Public Welfare Committee for immediate consideration.

The communication suggests that the membership of the general committee shall include representatives of the chamber, the Realty Board, Engineers' and Architects' Association, Merchants' and Manufacturers' Association, Municipal League, Automobile Club of Southern California, the leading women's clubs and some of the city officials conversant with traffic problems.

ADmits HE'S "FENCE."

Chauffeur who Received Stolen Jewels Pleads Guilty.

Admitting he received a large part of the \$10,000 worth of jewels stolen June 1 from Mr. and Mrs. W. P. Cooper of Chicago at a local hotel, Frank South, formerly a chauffeur at the hotel, pleaded guilty yesterday in Judge Willis' court to a charge of grand larceny. He will have a hearing December 8 on an application for probation. It was charged that he received the jewels from Clyde Sawright, a bellboy.

DAILY TRADE TALK.

Local Security Market is Active; Retail Geography; Egg Prices.

BY CHAPIN HALL.

NO DOLLAR EGGS FOR LOS ANGELES.

Fresh eggs sold for \$1 per dozen in the San Francisco retail market yesterday, but Los Angeles declined to start for the breakfast food to do and there was no price advance here. This, in spite of the fact that San Francisco is supposed to set our retail pace. This was the second time in two months that eggs have sold for 1-1 cents each in California.

While the northern market advanced 1 1/2 cents, fresh eggs sold on the exchange here for 77 cents per dozen. This is equivalent to an average retail price of 31 cents; 19 cents under the San Francisco market. Butter remained at 47 cents wholesale, averaging from 71 to 73 cents retail. It is 2 cents higher in San Francisco.

Reports yesterday showed that Los Angeles was paying less for dairy products than any other large city in the country. Local dealers say that the peak for the year has probably been reached. No material declines are predicted until spring, although there has been such decline in other years after Thanksgiving.

The difference in the price range between San Francisco and Los Angeles is due to the fact that the production hereabouts is so light that it is all needed for local consumption, and accordingly we are not in competition with other markets.

Turkeys yesterday averaged around 58 to 57 cents retail and this will probably be today's quotations with prime chickens from 45 to 50 cents per pound, retail.

The total debt amounts to less than 1-3 of 1 per cent of the assessed valuation of the property in this district, while the present population of the district is estimated at 400,000.

Standard Gas and Electric. Merrill Lynch & Co. are offering locally the 7 per cent convertible sinking fund secured notes of the Standard Gas and Electric Company, the price being \$99 and interest, to yield the investor 7 1/2 per cent net. The proceeds of the sale of these notes will be used to liquidate the present unfunded debt of the company, which has been created by the acquisition and in the financing of extensions and improvements of subsidiary properties.

The Standard Gas and Electric Company is one of the largest public utility corporations in the United States, controlling the enterprises known as the Bell Gas Co. In addition the company recently acquired controlling interest in the Shafter Oil and Refining Company, an important producer, distributor and refiner of oil. The income statement for the twelve months ended September 30, 1919, not including the earnings of the Shafter Oil and Refining Company, showed a profit of \$2,000,000. According to a provision made in the retirement of these notes by the establishment of a sinking fund, more than \$1,000,000 of this issue will be retired before maturity.

Reserve Bank Review. The monthly report of the general business and agricultural condition throughout the Twelfth Federal Reserve District issued yesterday from the office of John Perrin, chairman of the board, finds that adjustment to a peace basis has progressed rapidly, and that lumbering, shipbuilding and mining are among the district industries most directly affected by the war stimulus.

There has been an increased demand for lumber due to increased building activity, nineteen principal cities in the district reported permits for 1919 of \$12,116,000 in October, 1919 as compared with \$1,311,000 in October, 1918 and \$1,093,000 in September, 1918. Home and apartment houses are responsible for about 70 per cent of the valuation. The largest number of unemployed persons is in the building industry.

FINANCIAL.

OFFICE OF THE TREASURER.
Los Angeles, Nov. 26, 1919.
Bank charges yesterday were \$114,140.00, an increase of \$1,000.00 as compared with the corresponding day in 1918.

The price of cauliflower was advanced from 10 to 12 cents per pound. The price of cauliflower was advanced from 10 to 12 cents per pound. The price of cauliflower was advanced from 10 to 12 cents per pound.

HOTCHKISS REDWOOD COMPANY

of California

First Mortgage 6% Serial Gold Bonds

Dated July 1, 1919. Due July 1, 1924 to 1933, incl.

Legal Investment for Savings Banks in California.

Unconditionally guaranteed as to interest by W. J. Hotchkiss.

Bonds are a direct obligation and only funded debt of this company.

Security is a first mortgage on 19,000 acres of timber land in Del Norte County, California, containing over one billion feet of redwood timber, appraised for us in excess of \$3,250,000, against which the debt is \$550,000.

Redwood timber is immune from destruction by fire. California's redwood trees are among the oldest things known to civilization.

In three northern counties of California exists practically the entire world's supply of redwood.

We Own and Recommend these Bonds to Conservative Investors.

Prices and Accrued Interest to Yield 6 1/2%

SAN FRANCISCO SEATTLE NEW YORK

FIVE MINUTES in a CORNER

—would be ample to convince you of the value of the San Joaquin Light and Power Corporation's first and refunding mortgage 6% bonds as an investment. You would share our enthusiasm when you learned the exceptional features of these bonds.

But it is not possible to come face to face with all who are seeking investment opportunities and this advertisement will serve you and aid us in providing wide distribution of these bonds at home.

JUST READ THESE SIX STRONG FEATURES:

- 1 This issue of bonds is to provide but 75% of construction cost of 45,000 h. p. hydro-electric plant which will double present capacity.
- 2 For the last 9 years the net earnings of the corporation have been in excess of twice bond interest requirements, except one year.
- 3 The corporation's officers state this new plant will increase net earnings over \$1,125,000, while interest charges will only be increased \$224,520.
- 4 Corporation operates in cities under constitutional right equivalent to perpetual franchise and outside incorporated limits either under long term franchise, or on private rights-of-way. All franchises but two extend beyond the maturity of these bonds.
- 5 System covers 7 principal counties of the San Joaquin Valley embracing territory approximately 200 miles in length, 80 miles in breadth, and including Fresno, Bakersfield, Merced, Madera, Selma, Hanford, Sanger, Dinuba, and more than 50 smaller communities.
- 6 Rates charged are not subject to municipal regulation, but are fixed by the Railroad Commission of the State of California, whose avowed policy it is to fix rates for light and power utilities that will insure a fair return on the capital invested.

Plucking the Ostriches

Thanksgiving Day
10 a.m. to 4 p.m.
An Interesting Sight

Come out and see how it's done. See how the wonderful ostrich plucking, now so fashionable for military wear, is taken from the bird. The otherwise vicious bird is rendered docile merely by pulling a stocking over his head. He never feels the extraction of the plume.

Take South Pasadena, care of motor out

The vacuum can retains it.

It's the original vacuum packed coffee.

HOME SPLIT BY BAN ON KISSES.

Husband on Fixed Allowance During Eight Years.

Wife Loses Divorce When He Tells Facts to Court.

Queer Drama Turns on "Sex Domination" Doctrine.

The story of a home that was disrupted because the wife refused to allow her husband to careen her more than once a month, was told in Judge Crail's court yesterday by John Emery Lanaster, defending himself from his wife's charges of cruelty in a divorce suit. Mr. Lanaster's son and daughter testified for their mother, but so eloquently and clearly did the father put his case that the court denied Mrs. Lanaster a decree.

Judge Crail stated at the close of the trial:

"I wish the women of Los Angeles county could have heard this story."

Mr. Lanaster and his wife, Olive Elizabeth Lanaster, seem to have got along happily together until ten years ago. Said Mr. Lanaster: "My wife got to talking to some old men and she stated she heard something about sex domination. The other woman said she had curtailed her husband to careen once a month, and she advised Mrs. Lanaster to do the same. Consequently, I was placed on a monthly basis from the latter part of 1910 until February of this year."

CRISIS REACHED. "I will admit we were getting along badly. My home was not happy for me nor for her either. I imagine, but we never had any serious trouble. I told her about February 1 that she had not lived with me as a wife should live with a husband. I said to her 'You know what this is. I am not putting it up to you.'"

It was understood years ago that I was not to bother her for careen. I respected her desire and it continued until this day in February. When I said to her 'Unless you can come to me with that love and affection that a wife should bring to a husband in each case, I do not want you to come.' She told me she would do all in her power to live as a wife should with her husband. We lived as we should live until she began to crab about sensation in matter. She said she would not submit to careen when she was not wanted. I do not want you to come."

There was also trouble when, as Mr. Lanaster said, his grown daughter slept all day and wanted to read all night. He went to her room and turned down the light. She turned it up. He dimmed it again and she turned it up. This went on for some time, until his daughter "clawed" his face. Mrs. Lanaster stood with her daughter.

"The court believes what the father said," stated Judge Crail. "I do not place much value on the testimony of a daughter who has been supported by her father for ten years after she was 18 years old; who has no more gratitude for him than she could have for a tenant living in the house and paying less than a reasonable rent. The children could have been raised to respect and admire their father. That was not raised that way. That is the reason for the trouble in the family. The father's life could have been made pleasant at home; it was not. Under the laws of California he is entitled to a divorce any time he wants it."

WINK SYSTEM FOR POLICE IS APPROVED.

WILL DIM STREET LIGHTS THREE TIMES, AT SHORT INTERVALS, IN EMERGENCY.

The "three-wink" system of calling patrolmen to the boxes in their districts to receive instructions or special orders from headquarters is to go into effect. The municipal street-lighting system is to be used, and it is said that Los Angeles will be the first city in the United States to adopt this system. If it works well, it will be extended.

The Board of Public Service Commissioners, before which City Electrician Manahan laid the project last Tuesday, yesterday unanimously adopted the following report from Chief Electrical Engineer Hattergood:

"The use of the municipally-operated street lights for signaling police patrolmen on duty, as requested by the police department through the City Electrician, appears meritorious as one of the main purposes of street lighting is to aid the patrolling of the city, and it is believed the Bureau of Power and Light can take this without appreciable detriment to the equipment or appreciable inconvenience to pedestrians."

The signal would consist of an appreciable dimming of the lights three times in succession, at intervals of five or six seconds. It should be understood that the bureau would be called on to give such signals only in matters of importance and that the action of the board is revocable in event such use of the street-lighting system should prove detrimental. With such understanding it is recommended that the practice be put into effect immediately."

FLOWERS IS HIT BY DAMAGING EVIDENCE.

SHOWN HE DIDN'T OWN PRINT SHOP WHEN HE SOLD HALF INTEREST IN IT.

After several sharp clashes between opposing counsel, the hearing of J. Monroe Flowers, president of the so-called "Automobile Club of America-International," accused of obtaining money under false pretenses until this day in February, was continued. Flowers, who is charged with further cross-examination of J. W. Martin, whose printing shop on Ninth street Flowers sold, was shown evidence that he had sold the shop to a man named Rinker.

Mr. Rinker fixed the exact date of his purchase at \$125 in cash, \$50 Liberty Bonds and the transfer of a Ford car to Flowers for a half interest in the printing shop. Mr. Rinker said Flowers made offers to buy the plant, but they were rejected before the payments were made. A clinching bit of evidence was given by E. H. Catterlin, a printer in the shop. He said Flowers and Rinker had a deal. Flowers wanted the shop and wanted the printer to remain in his employ.

Flowers is represented by Capt. W. Helms, Fred J. Spring and Frank Allen. Capt. Helms and Deputy District Attorney Hill had several verbal clashes during the hearing.

HURT IN AUTO SMASH.

Three Others Escape as Machine Hits Freight Train.

Nick Ednot of 327 Bodie street last night sustained injuries that may cause his death, when an automobile in which he was riding crashed into a Pacific Electric freight train at Long Beach boulevard and Stauken avenue. Ednot was taken to the Receiving Hospital. The machine was driven by W. F. Hall of 153 South Utah street. Two other persons were in the machine, which was wrecked. Hall told the police that he did not see the freight train on account of a fog.

Stirpe Bors of 2817 Granada street was probably fatally injured yesterday when he was hurled from his motorcycle at San Fernando road and Avenue 38, as the result of a collision with an automobile driven by John H. Hoffman of 2929 Humboldt street. At the Receiving Hospital Bors was treated for a fracture of the skull.

ASKS HARBOR BOARD

TO PAY FOR SEWERS.

The Harbor Commissioners were requested by the City Council yesterday to signify in writing their willingness to pay the cost of sewers for Terminal Island, which will be named against city property. Recently the City Attorney advised that the Harbor Commission can pay out of the cost of the city's construction along city-owned properties that are leased for a term of years to private parties.

ASKS APPROPRIATION.

The Soldiers and Sailors' Replacement Bureau yesterday asked the City Council for an appropriation of \$50 for supplies with which to close up the work under the present regime. Attention was called to the fact that the American Legion will take charge of the information and assistance work, and the placing of returned service men will be conducted by the State Labor Bureau.

HOT AFTERMATH TO DE VALERA.

Sailors from Ireland Decry San Diego Reception.

Turn Wrath on Meeting Led by Legion Chairman.

Demand that He Resign from His Post Forthwith.

The fact that Capt. Ed J. Kelly, chairman of the San Diego Post-American Legion, was chairman at the reception and meeting held at San Diego for Eamon de Valera, so-called president of the so-called Irish republic, has caused much discussion inside and out of the post. The night of the de Valera meeting at San Diego, the executive committee of the post in a special session asked Kelly to resign. He refused to do so unless the entire post should vote in favor of it. A meeting of the post has not yet been held.

In the meantime, members of the executive committee of the Friends of Irish Freedom have sent a communication to the San Diego Post, stating that Capt. Kelly explicitly stated to them that he would not take part in the de Valera reception "only with the complete understanding that such action on his part would be that of an individual American citizen and was not to be construed in any manner whatsoever as involving the American Legion."

NAVY MEN HEARD.

Outside of the San Diego Post, the crews and officers of the destroyers and other naval vessels in San Diego Harbor, many of whom were in Ireland at the time of the Queenstown riots, are not slow to express their opinion of the de Valera reception and the Sinn Feiners. Among the boats here is the U.S.S. Albatross, now the flagship of Admiral Wilber of the destroyer flotilla, and during two years the flagship of Admiral Sims off the coast of Ireland.

Men and officers recall an occasion August, 1918, at Queenstown when in the Coliseum Theater the Sinn Feiners hosed the appearance of the American flag, as it was shown on the screen. No Americans were allowed to attend and this theater for many months, on account of the respect shown the American flag.

Having seen the American sailors in the Sinn Feiners' hands, out of bounds, as unfit to parade Patrick street and the Mall, they declare they do not understand how people of this country receive these Sinn Feiners.

While we were at Queenstown," said one young sailor, "they formed a society with the avowed intention of tarring and feathering any sailor seen with an Irish Catholic girl. But they didn't get away with that."

An officer who was with Admiral Sims in the Queenstown command wrote the notice on the issue of the American Legion that would countenance the de Valera visit. As to the feeling regarding the Sinn Feiners, he quotes from the issue of the Cork County Eagle an editorial regarding an invitation from Ireland to President Wilson to visit that country. The Eagle said the grim humor of the situation and says:

OUR FLAG A DOORMAT.

"The most ardent call for Mr. Wilson apparently proceeded from those who saw no use in the Stars and Stripes for the past few years except as a doormat. Is it the same old city that put Mr. Wilson's sailors out of bounds as unfit to parade Patrick street and the Mall alongside the city beauties? Are the city hospitals quite safe now from the moral contagion of Uncle Sam's men?"

One of the proudest possessions of the Melville is a receiving signal board which was rescued by the British from the German submarine U-14 after she had sunk. It was presented by the British Admiralty to the Melville in recognition of "never-ending assistance" she has given to the Queenstown command in the most energetic warfare.

"Pull Together," another treasure of the Melville, is a photograph of a naval mine, presented by him with the inscription, "To the commanding officer, officers and crew of the ever-faithful Melville, in recognition of the always-cheerful, efficient services in getting on with the war."

The men who received this recognition say that the Sinn Feiners are not the better class of Irish, whom they admire, and that the Sinn Feiners are trying to make the issue one of religion—Catholic against Protestant.

PLAN THANKSGIVING FEED FOR THOUSAND.

Approximately 1000 men, women and children will be given Thanksgiving dinner next Sunday at Plough Park, 6062 Echo street, Highland Park. Those arranging for the dinner requested persons who are willing to lend their automobile for the work to communicate with the home. Thanksgiving dinners also will be provided tomorrow at Plough Grande, Plough Gardens and Plough Ark, the home for girls.

MONEY FOR OCCIDENTAL.

Plans of the trustees of Occidental College to raise \$500,000 were given added impetus yesterday, when President Evans received word that the general board of education of the Presbyterian church, at a special meeting in New York, had allotted 5 per cent. of the National New Era collection for education to the college. This grant will approximate \$100,000. President Evans stated, as the Presbyterians are raising a fund of \$2,000,000.

This grant from the Presbyterians is given conditionally on the college raising \$400,000 by March 21, 1922, but the trustees of the college, President Evans stated, feel assured that this amount will be raised with little effort. An additional gift of \$10,000 has also been made to apply on the endowment of the department of Bible education, and several thousand dollars are also promised the college, principally by the trustees of the college, he stated.

A large number of persons living in California, many of them wealthy, are interested in the work that Occidental College is doing, and it is confidently believed that the \$500,000 will be raised within the allotted time.

GAS ORDINANCE FOUND INVALID.

Federal Judge Says Control is in State's Hands.

Holds Law Approved by City Voters Discriminates.

Rail Commission to Decide Distribution Question.

By an opinion voiced yesterday by U. S. District Judge Bledsoe, the Los Angeles Gas and Electric Corporation and the Southern California Gas Company won a notable victory in the action brought by these corporations against the city to enjoin the enforcement of the ordinance approved by the people at the election in November, 1918, requiring these companies to distribute only natural gas in their pipes and mains.

The order of the Federal court is to stay the enforcement of the ordinance, pending an exercise of jurisdiction by the State Railroad Commission. If that body fails to exercise its powers and jurisdiction, Judge Bledsoe stated that he would then take up the reasonableness of the ordinance. However, as the State Railroad Commission has argued that it had authority to control the use and distribution of natural gas, it is not at all likely that the Federal court will be called upon to act.

The opinion of Judge Bledsoe, delivered orally, covered all of the points in the case. He held that the distribution and use of natural gas in the city of Los Angeles is not a municipal affair, for if it was, it could not be controlled by general laws, and the balance of the State interested in the conservation of the natural resources, would have nothing to say about it. On the other hand, he stated, if it were a municipal matter merely, all the natural gas in the State might be used to the disadvantage of other communities, and even the Legislature would have no power to legislate to its use and distribution.

Judge Bledsoe discussed at some length the question whether or not, under the constitution of the State and the charter of the city, the municipality retained the right to power to control the distribution of natural gas, and held that it was a subject that came within the purview of the State Railroad Commission where the question as to whether or not the city could pass an ordinance appropriating all of the available natural gas for its own use to the detriment of a score of other communities or municipalities could be threshed out.

The judgment of the court leaves the matter in the hands of the Railroad Commission, which body will hold a meeting in this city next Wednesday, when the corporations interested in the action at bar, have been summoned to appear to show cause why the commission should not make an order as to the use and distribution of the available natural gas supply in Southern California.

FUNERAL SERVICES ON FRIDAY FOR DR. FISH.

FOUNDER OF PACIFIC HOSPITAL PRACTICED MEDICINE HERE TWENTY-FIVE YEARS.

Funeral services for Dr. C. W. Fish, one of the founders of the Pacific Hospital, who died yesterday, will be held Friday afternoon. The services will be at the West Adams Presbyterian Church at 2 o'clock. The body will be cremated at the Los Angeles Crematory. Arrangements for the services were made by Dr. W. H. Fishburn and Dr. Charles Locke, the latter a long-time friend of Dr. Fish.

Dr. Fish was a noted physician here for twenty-five years. He came here after completing his medical studies in Vienna. He was graduated from Western Reserve University and practiced for a time in Pennsylvania before going abroad. He was born in 1850 near Sharon, Pa. In 1874 he married Miss Catherine Goodfellow, of Oakland, sister of Dr. George Goodfellow. Mrs. Fish died seven years ago. In 1915 Dr. Fish married Mrs. Edith Harvey, who survived him. He has two sons, Farnum Thayer Fish and George Fish, who is in New York studying medicine.

Fish was a member of the medical associations of the county and State as well as the University Club of Los Angeles and the Los Angeles Country Club. He was a Knight Templar and a member of the West Adams Presbyterian Church.

GOES TO REFORM SCHOOL.

Having been arrested several times, Charles Burton, was committed to Preston School of Industry yesterday by Judge Willie for the theft of an automobile belonging to Burton A. On October 3, Burton went to Phoenix in the car and was arrested there.
